									Total dollars:	

The role of the **community facilitator** is to bring his vasectomy knowledge and experience to his community, educate his peers, and promote vasectomy. Often, this is a man who has had a vasectomy.

The role of the **social worker/educator** is to co-ordinate the community facilitators and see that counseling is complete and consents signed.

The role of the **nurse** is help with counseling, maintain sterile equipment and order supplies, and run the procedure room.
